

then realise that's good. This is a learning exercise and you don't learn unless you challenge yourself and embrace difficult problems.

In the next chapter, I'll give you my solution. Now, this doesn't mean that my solution is the right one. There could be a myriad of better ways of dealing with this case. Maybe you've found one? Maybe you have a different analysis? All I can tell you is how I would solve it and through the medium of maps explain my reasoning and my choices. Being a map, you're free to challenge any and all assumptions I've made. In fact, that's the point of a map and I welcome the challenge because it gives me the opportunity to learn.
